

Training and Development Governor Update: 7 January 2019

Skills Audit

We agreed at the last governors' meeting that everyone would complete the Skills Audit by 22/01/19. I will have sent out a reminder before the Strategic Meeting on 15/01/19.

Training 2018/19

We have already identified the following training requirements:

- Safer Recruitment in Schools: details of courses emailed out 04/10/18. Next RoSIS course will be on 19/03/19 or Learners First on 11/04/19. I will ask on 22/01/19 if anyone is interested.
- Appraisal training: Denise has attended.

Anything else particularly for us all as a governing body?

Training undertaken so far 2018/19

Anything else?

Next Steps

- Complete skills audit.
- Think about own training needs: met by courses already available?
- Is a course the answer or can the need be met in a different way?
- Collate and analyse skills audit results. Report back to governors.
- Identify any training required for whole governing body.

Any questions about training and development, please just ask.
