

Training and Development Governor Update: 30 August 2019

Training and development attended 2018/19

5 governors attended a total of 7 different training and development events during 2018/19. In addition, we arranged training specifically for our governing body. Mrs Keenan delivered a Safeguarding Awareness session to all governors present at the meeting on 12/02/19. Janet and Trisha held informal sessions with Andrea, Kenny and Nicola about preparing for Ofsted.

Training Records

I've updated our individual training records and sent copies to Kerry on 21/05/19. I will also send out to each governor at the start of term so you can check your details.

Skills Audit

We all completed the skills audit last year and this was reported on at the governors meeting in February 2019.

Training 2019/20

I emailed the RoSIS training prospectus to all governors on 18/06/19 and it is also available on the governors' website under General Documents.

If there was anything you would like some training on but which isn't shown in the prospectus please let me know. After attending any training, please share key messages with the rest of the governors and highlight if there is anything we should consider for Meadow View. This could be written and/or at a governors' meeting.

Training and Development Plan

A draft plan is attached. In addition, several governors have mentioned training they would like to book to address their own individual development needs. Please book any training direct with RoSIS but let me know what you do book and also please ask if you have questions or problems with booking.

Next Steps

Send individual training plans to individual governors by 13/09/19.

Identify any training required for whole governing body (All).

Upload training and development plan.

Make time at governors meetings once a term to reflect on training and development and the difference it has made (if any) to how we fulfil our role and to the children

Trisha White

Training and Development Governor
