

Our Approach to teaching.....

Physical Education

In PE, teachers plan from the new curriculum and links are made to the cornerstones curriculum for dance, gymnastics and games.

Children's skills are also enhanced using the TOPS scheme of work.

Where appropriate, teachers innovate their plans to support Projects and cross-curricular learning e.g. mathematics time, length, co-ordinates etc

In EYFS children access dance in the Autumn term, gymnastics in the Spring term and games in the Summer term as a discrete lesson. Children also have the opportunity to develop physically through the environment.

Key Stage 1 and 2 children experience gymnastics, games and dance in half term blocks in each area. All children have experiences of athletics in the summer term. Year 4 also have one term of swimming and should places permit, children have a further term should we feel that a child would benefit from further swimming sessions.

All children have access to 2 hours of PE per week. This is generally 1 hour indoor and 1 hour outdoors.

The school receives funding through the Primary School Sports Funding and details of how this is spent is on our website. Primarily, we buy in PE teachers from the feeder secondary school who are upskilling our teachers to deliver effective and high quality PE sessions for our children.

Key Stage 2 children have the opportunity to attend cluster events and tournaments eg. Cricket, rounders and football throughout the year.

Year 2 and year 5 children attend a day at the EIS to broaden their skills and widen their experiences of sport.
